TRUDE KRISTIN BAH

ABOUT ME

I was born in Norway in 1963 and have been living and working as a graphic designer and webdesigner in Oslo for many years with both larger and smaller companies.

In earlier years I also studied fine art and graphics for four years.

INSPIRATIONS

My art is influenced by my background in graphic design and I am always curious and excited about trying out new materials and media.

Experimental and spontaneous is something that can describe my art. I use different types of media that I mix together and I like bright and powerful colors. My goal is to make people happy from my art and often with a twist of humour.

NEWFOUND PASSION

After moving to Helsinborg, Sweden in 2016, I found back my joy of art after being absent from it for many years. Moving to a new place with new impressions sparked my passion and love for art with new energy and desire to create.

Inspired by my creative dad in an early age, I love to express myself through different art and media and my paintings are often abstract, with some figurative forms and elements.

FOR BODY AND SOUL

My art expands from drawing and painting to knitted silverjewelry and textile designs. All created with my passion and desire of creating something unique and special, only for you! In my studio, I use every free moment to create, that is what makes life meaningful for me.

Feel free to follow me on facebook and Instagram and be a part of my creative journey!
